Forecast For Northeast England
Issued by Met Office Exeter
at 0400 on Friday 03 Dec 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Largely dry after a cloudy start. Showers spreading in overnight.

Today:
A cloudy start with the odd spot of light rain and drizzle, primarily across western hills. Gradually becoming drier and brighter from the west through the morning, although the odd shower is possible later in the day. Feeling less cold. Maximum temperature 6 deg C (43 deg F).

Tonight:
Partly cloudy with showers becoming heavier and more frequent later in the night, perhaps turning to snow across the the higher parts of the Pennines and Cheviot Hills later. Minimum temperature 1 deg C (34 deg F).

Saturday:
Rather cloudy and chilly, with showers or longer spells of rain, heavy at times and wintry on hills. Winds becoming strong through the day, with coastal gales possible later. Maximum temperature 5 deg C (41 deg F).

Outlook for Sunday to Tuesday:
Chilly Sunday with strong winds and outbreaks of rain, sleet and hill snow gradually easing. Bands of rain and strong winds tracking eastwards Monday and Tuesday, preceded by some snow.
